2019 Report

to the Community

*The Foundation for All
Parks in Geauga County—
Building a Lasting Legacy
for All Generations*

Message from the President

Your Foundation for Geauga Parks is indeed the Foundation for ALL parks in Geauga County, and your Board of Trustees is working diligently to build a lasting legacy for ALL generations. As the newly appointed board president, it is my honor to look after the interests of each of you who trusts the Foundation to raise money to fund community engagement with nature in Geauga County.

Within this report you will read updates on recent accomplishments and catch a glimpse of what projects are on the horizon. The Board of Trustees is pleased to have added to our staff this year. Our new Director Gretchen Faro is a seasoned professional in development and operations. Paige Orvis, Associate Director, holds a long history in marketing and communications for our Geauga County parks. We feel this is a winning combination to build upon a strong foundation, as we extend our services to assist all parks and nature education projects in the county.

Thank you all who continue to demonstrate your confidence and support of the important work of the Foundation for Geauga Parks. Together we can ensure a lasting legacy for generations to come.

Yours in nature,

A handwritten signature in black ink, appearing to be 'AH' followed by a long horizontal stroke.

ADAM HENRY
Board President

Our Mission

The Foundation for Geauga Parks is an independent, non-profit organization created to raise money to fund community engagement with nature through education, preservation, conservation, and appreciation of the unique natural character of Geauga County.

2020 Foundation Trustees

Adam Henry - President	Linda Brown	Mary Beth O'Neill
Claudia Toth - Vice President	Matt Burnham	Jennifer Salo
Jonathan Green - Treasurer	Sue Lundstrom	Sheryl Vernon
Carl Langer – Secretary	Heidi O'Neill	Richard Frenchie - Emeritus Trustee

The Board of Trustees extends gratitude to Keith Corkwell, Casey Forbes and Jeff Hyde, who completed their Board terms in 2019. Their contributions have been immeasurable.

Staff

Gretchen Faro - Director

Paige Orvis - Associate Director

Message from the Director

It was in reference to Geauga County that I first learned the word “bucolic” as a youngster. (It might have been in context of the then-proposed extension of Route 422, but I don’t want to date myself.) Even as the region’s population has spread out from the city center and inner ring suburbs, the county has maintained much of its idyllic nature, due in no small part to community investments in our township and district parks.

Any number of studies have demonstrated that parks offer a variety of benefits to citizens, both residents and visitors. There are certainly many environmental benefits, including preserving habitats, decreasing air pollution, and providing water filtration. Parks also create economic benefits for both governments and individuals by exerting a positive influence on property values and attracting visitors from outside the county. But topping the list of benefits is what parks contribute to our personal quality of life – lovely settings that encourage both a physical and an emotional connection with the natural world.

The Foundation for Geauga Parks is honored to play a role in delivering these benefits. Over the years, the Foundation has helped to raise money for some remarkable parks and projects, from The West Woods to Observatory Park to Munson Township’s Scenic River Retreat. We are proud to support programs that inspire our young people to appreciate nature and are equally glad to be the trusted partner in raising and stewarding funds that will underwrite future enhancements to parks and trails throughout the county.

I hope you enjoy learning more about the Foundation in this report. Thank you to all our donors and sponsors who have made this work possible!

GRETCHEN FARO
Director

SUPPORTING *Nature Education*

“I really enjoyed star gazing and learning how to use binoculars. The volunteers made these activities very interesting and fun! Thank you for coming to Kenston Intermediate School.”

— ELI LITTLE
Nature Scopes class of 2020

Nature Scopes

The Foundation for Geauga Parks is the lead fundraiser for Geauga Park District's Nature Scopes, the first binocular-focused nature education program of its kind in the country. It was established in response to research showing that close encounters with nature create a direct, personal involvement with the outdoors which cannot be matched by classroom discussion or photos in textbooks.

This school year-long program supplements science instruction by providing hands-on lessons matched to the Ohio Content Standards for fifth-grade science education. Fifth-grade students participate in a total of six interactive sessions involving outdoor exploration using binoculars, concluding in May with a field day where students are awarded their own binoculars and field guides for participating in the program.

8775

Students completed Nature Scopes training 2003-2019

38

Fifth-grade classes enrolled in Nature Scopes for 2018-19 school year

851

Students awarded binoculars and field guides for 2018-19 school year

School Field Trip Funding

One barrier schools face is having the funds available to bus students to parks for nature education programs. The Foundation for Geauga Parks is removing this barrier by offering transportation grants to Geauga County schools.

1,083

Students received field trip transportation in 2019 to attend naturalist-led programs and activities in the parks

Nature Education Scholarships

In the interest of preparing the next generation of conservationists, the Foundation collaborated with Protect Geauga Parks in 2019, providing \$1,000 to fund one of three \$1,000 scholarships awarded to students entering college for studies in natural or environmental sciences.

GEAUGA Skywatchers Club

Did you know Geauga County has a nationally recognized dark sky park?

In 2019, the Foundation helped launch the Geauga Skywatchers Club with the goal to inspire and encourage learning about and engaging with the night sky. In collaboration with other Geauga County organizations, we help provide hands-on astronomy education at monthly meetups around the county.

To make night sky viewing more accessible to all, in 2019, the Foundation donated five high-quality telescopes to Geauga County libraries where they are now available to checkout for free.

SUPPORTING *New Trails*

Photo courtesy of Paige Orvis

In 2019, the Foundation helped fund a new one-mile trail in Munson Township's Scenic River Retreat. This trail provides access through woodland and wetlands to explore the unique natural features in Munson Township.

"The new trail in Scenic River Retreat became a reality thanks to the funding and support of the Foundation. We couldn't have completed the project without the Foundation and appreciate that they have stayed involved."

—IRENE McMULLEN
Chair, Munson Township Trustees

Natural Resources Conservation

ON THE HORIZON

Piloting Pollinator Gardens Program

Countless studies have confirmed that pollinators around the world, such as bees, butterflies, birds, and mammals, are facing threats from habitat loss, degradation, and fragmentation. Our plan is to build a partnership of organizations in the county committed to raising awareness and encouraging practices that will reduce pollinator habitat loss and fragmentation. The collaboration will result in demonstration gardens and educational opportunities for students and the general public. We will provide updates through Foundation communications as the program progresses.

The Foundation for Geauga Parks extends deep gratitude to the Cleveland Foundation Lake-Geauga Fund for its support of this important program.

Explorers Series

The Foundation for Geauga Parks established its monthly “Explorers Series” as a way for like-minded individuals to connect and explore a different park in Geauga County by boot, bike, paddle, or skis. Each experience provides a fun way to get outdoors, meet new people, and learn more about the natural, historic, and cultural beauty of our county.

The activities are geared for people of all ages and typically take about an hour to an hour and a half. Many are led by a park naturalist or a knowledgeable individual who shares insights about the natural and historic aspects of the park.

2020 Explorers Series Calendar

February 1	The Rookery	August 1	Bass Lake Preserve
March 7	Beartown Lakes Reservation	September 12	Thompson Ledges Park
April 11	The West Woods’ Affelder House	October 3	Scenic River Retreat, Munson Twp.
May 2	Big Creek Park	November 7	Burton Wetlands Nature Preserve
June 6	Veterans Legacy Woods	December 5	President’s Choice TBA
July 11	Punderson State Park		

Would you like to stay up to date on Explorers Series and other Foundation activities?

Answering the Call Together

If we consider the value of parks in our lives, we could assert that rivers protect natural communities, promote healthy living, improve quality of life, and enhance the local economy.

The Foundation for Geauga Parks was formed 30 years ago as a fundraising conduit to support Geauga County's rich natural resources, including its rivers, woodlands, wetlands and meadows, which are so important to our residents, businesses, and downstream neighbors. Together we are investing in land conservation projects, park and trail enhancements, and nature education to ensure the upcoming generations continue the legacy of clean air, clean water and a rich natural and cultural heritage. We urge you to join this effort.

Thank you for your support! Through your generosity we can continue a legacy of education, preservation, and exploration in Geauga County.
