

CHIP HENRY ADVENTURE CAMP

Geauga Park District's Nature Adventure Day Camp, part of the Chip Henry Institute for Outdoor Adventure, offers children an unforgettable opportunity to immerse themselves in the great outdoors.

The Foundation for Geauga Parks supports this important initiative by funding program supplies and services that expand programming and ensure more children have the chance to attend.

More than just a camp, it's a hands-on educational adventure. Campers in grades 3–10 experience a wide range of outdoor activities guided by Geauga Park District Naturalists. Each week includes a blend of nature study and recreation. Campers begin and end each day in various Geauga County parks and activities include hiking, biking, kayaking, fishing, archery, stream exploration, astronomy, orienteering, ropes courses and more!

In addition to enriching the lives of campers, the program provides seasonal staff with meaningful job experience and training in the field of environmental education — a win for both youth and future naturalists.

Sponsored by the Foundation for Geauga Parks, the Institute was created in memory of Judge Charles "Chip" Henry — a passionate advocate for youth and nature. His legacy lives on in this program's mission: To nurture youth through outdoor adventure.

"My son...loved every minute of it and talked a mile a minute about every detail when he got home...I was so impressed by the **quality of the programming and the variety of experiences**...we are so grateful to live in the vicinity of these amazing parks."

"[She hates to read but] my daughter **really enjoyed the Astronomy day** and has read her book already."

"This program was phenomenal! Our son had a wonderful time and **we can't wait to go back as a family so he can show us what he learned.**"

"The nature camp is a **great program to get teens outside** and appreciating the outdoors."

"My grandson thoroughly enjoyed all the activities...he **learned some new skills and improved in existing ones.**"
